Basundhara, Kathamndu Nov 2024 – Feb 2025 3 months

Maharudra Group Pvt.Ltd, Frontend Developer

Hariharbhawan-3, Lalitpur

Worked as a Frontend developer. Learned about design using Figma for better prototype and deployment using vercel for static websites.

Nepal

Aug 2024 – Nov 2024

3 months

- Developed and maintained modern frontend interfaces using React for client-facing and internal platforms across IT, Telecommunication, Renewable Energy, and Civil Engineering domains.
- Built responsive, accessible user interfaces using scalable component for easier maintenance.
- Worked directly under the manager to translate complex technical and engineering requirements into clean, high-performance web applications.
- Designed prototype using figma and other website for better flow in system.
- Deployed static react websites in vercel for better developer experience and faster development velocity

Projects

Collect

Web application that lets users build custom questionnaires, share pre-made templates with a public community.

- Created an intuitive drag-and-drop-style form engine that allows users to generate customizable survey links and share templates across a public library.
- Developed a fast Vite/React frontend styled with Tailwind CSS, supported by a Node.js/Express REST API and Prisma ORM with MongoDB.

Sotus

Fun application to read manga using ManagDex API.

- Integrated MangaDex REST APIs using TypeScript to fetch real-time chapter releases.
- Built a lightweight, high-performance reader UI using Svelte

DX-Kanriki Kun (Hinomaru Technology)

Developed a multi-tenant ERP system with isolated tenant data, enabling multiple organisations to operate securely within a single application.

- Built and maintained core business modules including Human Resources (HR), Accounting, and Inventory/Handling Management.
- Collaborated with the team using Git and participated in code reviews, bug fixes, and feature development following agile practices.
